IMPORTANT NOTICE FOR ALL BUDDY BOX CLIENTS!

Many of our regular clients may have noticed we have switched onto a new type of buddy box container. Age UK takes health and safety very seriously so felt it was necessary to make the following points.

- The containers **ARE** now microwavable, including the small black dessert ones.
- The containers can **NOT** go into the oven as they melt and are a fire and safety hazard.
- The containers are reusable. (Please return rinsed to the driver)
- They are more secure.

If you feel that you are not hungry just yet and wish to eat a little bit later, please put your food in the fridge and then reheat to a 75-degree temperature later. Our containers are suitable for a microwave, we recommend to re-heat the meal in the microwave. Please do not put our containers in the oven as they will melt. Please only reheat this **once** to avoid any food poisoning.

Your meals are much more secure in the tight-fitting containers to allow for better food quality, as well as being reusable. If you wish to give these to the driver the following meal you receive, we can sterilise them here at Age UK, helping the environment by reusing them when sanitised.

We would like to thank you for your on-going support, and we will continue to try and give you the best service possible. Any further queries or questions we are happy to help.

Thank you.

The kitchen team.
